Hospital Position Logbook Summary

Post Fellowship Education and
Training Spinal Surgery
Australian Orthopaedic
Association and Neurosurgical
Society of Australasia

Institution Name

A separate logbook must be completed for each institution related to the proposed position. For each operative case where more than one surgical procedure is undertaken only one procedure may be recorded. Only include cases undertaken by surgeons in the unit who have agreed to participate in the supervision, education and training of the fellow.

Note: Operations with multiple procedures should only be counted once. For example, for a hybrid ACDF and disc arthroplasty, it may be counted as an ACDF or an arthroplasty, but not both.

Spine - Adults and Paediatrics	Year 1	Year 2	Total
Lumbar discectomy			
Lumbar canal decompression			
Cervical laminectomy			
Cervical foraminotomy			
Thoracic laminectomy			
Thoracic discectomy			
Posterior instrumented fusion, occipito-cervical, cervical, thoracic, lumbar, lumbo-pelvic			
Posterior lumbar fusion without instrumentation			
Anterior cervical discectomy and fusion			

Cervical disc arthroplasty

Lumbar disc arthroplasty

Anterior lumbar interbody
fusion

Lateral lumbar interbody
fusion

Posterior lumbar interbody
fusion

Corpectomy and stabilisation

Epidural abscess

Epidural haematoma

Post-operative wound
debridement
